

“Few and far between” is now nearby.

Aston Martin dealers are as rare as the cars themselves. Now Bobby Rahal Aston Martin in the Pittsburgh area allows you to experience firsthand the power, elegance and beauty of one of the most exclusive motorcars ever built.

Aston Martin selects only a few dealers worldwide. The selection is based on a dealer's reputation and ability to perform to incredibly high standards.

Opened in the fall of 2001, Bobby Rahal's new dealership is a 50,000 square foot, state-of-the-art showcase for high-performance automobiles — Aston Martins, Jaguars and Volvos.

Known worldwide as the car James Bond drives, each Aston Martin can be custom built specifically for its owner. Select the colours, leathers, wood veneers, wool carpets and customized accessories that will make yours like no other. After it's delivered, your car will be cared for by experts. At Bobby Rahal, technicians are trained and certified by Aston Martin. When service is required, our transporter will pick up your Aston Martin, and return it to you.

We're looking forward to custom designing and caring for an Aston Martin specifically built for you. After all, the car should be rare and the dealership exceptional.

Elegance, Power and Performance. The DB7 Vantage. Powerful V12 muscle, hidden beneath aerodynamically styled curves, Connolly leathers, wool carpets and burr wood veneers. Custom built just for you. Aston Martin. It's not just a car; it's a legend.

Beauty with a hint of menace.

An Aston Martin DB7 Vantage is a unique blend of power and poetry. Understated elegance, unrivaled craftsmanship, and powerful muscle---zero to 100 mph in a stunning 11.4 seconds.

Each Aston Martin is custom-made, creating a one-of-a-kind bond between car and owner. Should our range of twenty standard paint colours or sixteen leather shades not meet your precise requirements, we can provide any colour that fits your taste or imagination. Select from a wide variety of options, including: three distinctly different transmission systems, sport exhaust, 19-inch wheels and tyres, satellite navigation system, colour-keyed luggage, satin finish aluminum brake pedals and personalized sill plaques. The end result can be an Aston Martin like no other ever built.

You can witness your car being hand-built at the Aston Martin plant in Bloxham, England. Stay over and run a DB7 Vantage through its paces at the Millbrook Park Proving Grounds. You'll be able to experience the car's incredible acceleration, reach speeds not possible on American highways and test the electronic traction control and Brembo anti-lock braking systems. Aston

Martin. Restrained yet powerful,
luxurious yet sporting,
rare yet renowned.

Cocktails will be shaken, you'll be stirred.

Bobby Rahal Aston Martin invites you to test drive what James Bond considers the ultimate company car.

Whether it's a treacherous mountain pass in the Alps, the all-out speed of the Autobahn, or the serpentine roads winding through the hills of Pennsylvania, you'll find the power, balance and handling of an Aston Martin unsurpassed.

Press the illuminated starter button, feel the 420 horsepower V12 engine come to life, then experience the acceleration and exhilaration of an Aston Martin.

Whether you're a well-known surgeon, a successful businessman, or the world's most famous spy, the Aston Martin is a driving experience you won't soon forget.

Schedule a test drive. Put the car that's become a legend through its paces. Then select the colours, leathers, wood veneers, carpets and accessories that will make your Aston Martin like no other.

Elegance, Power and Performance. The DB7 Vantage. Powerful V12 muscle, hidden beneath aerodynamically styled curves, Connolly leathers, wool carpets and burr wood veneers. Custom built just for you. Aston Martin. It's not just a car; it's a legend.
